PROFILE

Professional Summary

Audiovisual translator and subtitler working from English into native Brazilian Portuguese, with hands-on experience across subtitle creation, timed SRT translation, spotting, dialogue adaptation, review, post-editing and final QC. Delivers subtitles that preserve **meaning, character voice, humor and cultural nuance** while meeting project-specific reading-speed, characters-per-line, timing and segmentation requirements. Reads every cue against the picture, checks on-screen text and shot changes, maintains terminology consistency, and flags ambiguities rather than guessing. Comfortable managing independent remote assignments, feedback cycles and delivery deadlines for international language-service workflows.

SELECTED PORTFOLIO METRICS

HOURS SUBTITLED	YEARS IN LANGUAGES	STUDIOS & AGENCIES	INTERNATIONAL FESTIVALS	VIDEO MIN / WEEK
Audiovisual localization portfolio	Translation and localization work	International and Brazilian partners	Selected audiovisual portfolio	Current portfolio-stated delivery capacity

Portfolio figures. Weekly volume describes stated delivery capacity, not a cumulative completed-hours metric. Festival figure reflects the portfolio's selected work. Public titles are credited by name; confidential projects remain undisclosed.

CAREER HISTORY

Professional Experience

Freelance Audiovisual Translator, Subtitler & Linguistic QA Specialist

2015–Present

VSI · VOX Mundi · Moshi Media · Acclaro · OneVoice · Other LSP, film producers & direct clients

- Translate and localize audiovisual content from English into Brazilian Portuguese for **film**, **documentary**, **series** and **digital media**, with **260+ hours subtitled** across the portfolio.
- **Create subtitles from source video and brief**, including spotting, in/out timing, line breaks and synchronization; **also translate pre-timed SRT files** within project-specific CPS and CPL limits.
- Adapt **dialogue**, **idioms**, **slang**, **humor**, **wordplay**, **character voice** and **cultural references** so that Brazilian Portuguese sounds natural while preserving narrative intent.
- Review subtitles against picture and source, checking omissions, additions, terminology, spelling, punctuation, reading speed, line length, shot changes and relevant on-screen text.
- Deliver linguistic review, proofreading and subtitle QC; provide clear feedback and **raise source or brief ambiguities before they become delivery issues**.
- Manage remote assignments, revisions and deadlines across international and Brazilian production workflows; portfolio-stated delivery capacity is approximately **90 video minutes per week**.

Selected public credits: *John Wick*; *Bridget Jones*; *Record of Ragnarok*; *I Need Romance*; *A Wilderness of Errors*; *Choke*; *Amigo Secreto*; and *The World's Cutest and Funniest Animals*. Credits are listed selectively; additional work is confidential or not publicly credited.

Localization QA, AI Output Auditor & Software Beta Tester

Selected projects · 2026

Acclaro · AI language-quality and confidential enterprise software projects

- Evaluate AI-generated subtitle output against source content, project guidelines and quality criteria, checking accuracy, omissions/additions, terminology, context, segmentation and readability.
- Proposed an **18-category subtitle error taxonomy** with severity levels for structured AI subtitle auditing; the taxonomy was adopted by the team.
- Document defects with timecodes, source/target evidence, category, severity, rationale and corrective action to support consistent review and traceable decisions.
- Achieved **97% CRR against a 95% target** in Acclaro MT Evaluation for the measured period of 20 September–20 October 2026.
- Beta-tested confidential localized web and iOS interfaces, identifying residual MT, terminology inconsistencies, comprehension issues and text-fit problems with reproducible evidence.

Content Governance & Linguistic QA — Functional Lead Responsibilities

2020–2025

TeamWorker · Enterprise telecommunications content

- Develop and maintain **editorial standards**, **terminology resources**, **style guides**, **quality checklists**, **error categories** and **review workflows** for large-scale customer-facing content.
- Analyze language from **2M+ monthly** customer-service interactions and expand a controlled vocabulary from **700 to 2,700+ terms**.
- Train and support 15 writers and 15+ linguists, strengthening consistency, review practices, documentation and escalation of linguistic issues.
- Contribute to content and knowledge initiatives supporting 30,000+ agents; outcomes included **67% fewer zero-result searches** and an **18% improvement in average resolution time**.
- Support linguistic quality across **10,000+ AI-enabled CRM, chatbot and marketing content items**.

Functional lead responsibilities; not a formal people-manager title. Operational outcomes describe the wider program and are not attributed solely to an individual taxonomy or editorial intervention.

- Editorial standards
- Terminology management
- Reviewer training
- Quality frameworks
- Content governance

Academic, Legal & Technical Translator / Linguistic Reviewer

2016–2018 · Selected projects

Tikinet and independent language-service projects

- Translated and reviewed **academic**, **legal** and **technical materials**, applying client terminology, reference standards and document-specific formatting requirements.
- Conducted terminology and subject-matter research to select accurate **specialized vocabulary** and maintain glossary adherence across documents.
- Performed **bilingual review and proofreading** within structured review cycles, applying style guide compliance and editorial consistency to register and formatting.
- Managed revision tracking and feedback integration, flagging source ambiguities rather than guessing and **documenting decisions for traceability**.
- Built transferable competencies in terminology consistency, research discipline and detail-oriented quality control — the same standards applied to **subtitle translation and localization QA**.

- Terminology research
- Bilingual review
- Style guide compliance
- Editorial consistency
- Revision tracking
- Ambiguity flagging

SUBTITLING CAPABILITIES

Core Competencies

AUDIOVISUAL TRANSLATION

- **EN → PT-BR subtitling**
- Film & documentary

WORKING STANDARD

Every Cue, Checked

Reading speed and line length stay within the brief. Line breaks follow meaning, not arbitrary character counts. Every cue is checked against the picture. Terminology stays consistent with the glossary. Dialogue is adapted for native Brazilian Portuguese viewers. When the brief or source is ambiguous, the issue is raised instead of guessed.
